Présentation

Breaking news! The 2019 Europeana conference/Europeana Network Association Annual General Meeting will take place at the **National Library of Portugal**, Lisbon on **26-29 November 2019**.

This will be a unique interdisciplinary event bringing together communities from tech, communications, impact, research, education and copyright. Last year we introduced our network communities, and this year they will run the show, offering something for everyone. The event will demonstrate how they all relate but also strengthen each other.

Join over 250 thought-leaders from around Europe to discuss the issues that shape the future of digital cultural heritage.

What's on the programme? We're still planning so watch this space for more details but we are working hard on an exciting programme to appeal to both Network members and all professionals sector-wide, working in museums, libraries, education and the creative industries. The event will allow you to work with and learn from world-leading specialists and practitioners, and benefit from the mutual exchange of ideas and technology.

Registration for tickets opens in May, with a limited amount of early-bird tickets available at prices from 175 €. Regular ticket prices start from 225 €. Europeana Network Association members will be eligible for reimbursement of travel costs.
